SUMMARY

Detail-oriented Computer Science graduate (BSc, University of Gondar, 2025) with strong experience in full-stack web development and a growing focus on Software Quality Assurance. Skilled in building and testing web applications using the MERN stack, Next.js, and REST APIs, with hands-on experience in manual testing, API validation, debugging, and cross-browser testing. Passionate about delivering reliable, high-quality software through Agile collaboration, continuous testing, and clear defect reporting.

EDUCATION

✧ **Bachelor degree in Computer Science** **Sept 2021-June 2025**
University of Gondar, Gondar, Ethiopia

- ✓ Relevant Coursework: Data Structures, Algorithms, Web Programming, Database Systems, Software Engineering, Operating Systems

✧ **Frontend Web Development Certificate (ALX Africa, Remote)** **Dec 2024 -April 2025**

- Specialized training in React.js, JavaScript, HTML/CSS, and responsive design
- Capstone Projects: Built many projects in most of the weeks of the path, finally interactive Music library platform using React.js and REST APIs.

SKILLS

- **Programming Languages**: JavaScript, Typescript, Java (Learning)
- **Frameworks & Libraries**: React.js, Next.js, Redux , Express.js, Node.js, spring boot(Learning)
- **Testing & Quality Assurance :** Manual testing (Test case design, execution, defect reporting), API Testing(Postman, REST API validation, endpoint testing)
- **Databases & APIs**: MongoDB, Mongoose, PostgreSQL, REST APIs
- **Authentication :** JWT, Context API
- **Tools & Platforms:** Git, Chapa (Payment Gateway), vercel, Render
- **Methodologies & Soft Skills:** Agile Development, Problem-Solving, Team Collaboration

WORK EXPERIENCE

Frontend Developer Intern July 2024 – October 2024
Eaglelion system Technology Solutions – Addis Ababa, Ethiopia

- Built and manually tested a responsive agricultural marketplace using React.js and Tailwind CSS.
- Performed cross-browser compatibility testing (Chrome, Firefox)
- Enhanced SEO and cross-browser compatibility, improving site accessibility and performance.

Frontend Developer (Project-Based) **February 2025 – March 2025**
UN-ET Gondar Chapter Website – Gondar, Ethiopia (Remote)

- Developed a responsive website using React.js and Tailwind CSS, featuring accessible landing, about, teams, events, and contact pages for users.

Developer Intern - https://gebeya-amber.vercel.app/ June 2024 – October 2024

- Esset Tech Company – Addis Ababa, Ethiopia (Remote)

- ❖ Developed JavaScript-based web applications, contributing to multiple client-facing projects.

Software Administrator and developer

Addis MESOB digital service office – Addis Ababa, Ethiopia

Projects

Mesob Help Desk System

Professional Internal IT support ticket management platform designed to streamline technical support workflows and communication within multi-tenant organizations.

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Material-UI, Socket.IO, JWT, Chart.js

- ✓ Developed a full-stack ticket management system enabling employees to submit, track, and manage IT service requests.
- ✓ Implemented role-based access control supporting System Admin, Super Admin, Team Lead, Technician, and Employee roles.
- ✓ Integrated real-time communication using Socket.IO for live notifications, ticket updates, and status changes.
- ✓ Built interactive dashboards with Chart.js to visualize ticket analytics, technician performance, and support metrics.
- ✓ Designed responsive Material-UI interfaces with dark/light mode support for improved user experience across devices.
- ✓ https://mesob-help-desk.vercel.app/

Event Easy Platform

Professional event management platform for seamless event discovery and registration.

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), context API, JWT, Google Sign-In, Chapa, Vercel& Render

- ✓ Applied MERN stack to develop full-stack event dashboards with CRUD functionality.
- ✓ Executed 15+ manual test cases for user registration, event creation, and payment flows
- ✓ Designed secure authentication using Google Sign-In and Email/Password flows.
- ✓ Integrated Chapa payment gateway for streamlined event registration.
- ✓ Engineered responsive UI with React.js, ensuring cross-device compatibility.
- ✓ https://eventeasy-f.vercel.app/

Atlas Hospital Card Management System

Secure healthcare management platform designed to centralize patient records, staff management, and digital hospital card access.

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Material-UI, Socket.IO, JWT, Chart.js

- ✓ Developed a full-stack ticket management system enabling employees to submit, track, and manage IT service requests.
- ✓ Implemented role-based access control supporting System Admin, Super Admin, Team Lead, Technician, and Employee roles.
- ✓ Integrated real-time communication using Socket.IO for live notifications, ticket updates, and status changes.
- ✓ Built interactive dashboards with Chart.js to visualize ticket analytics, technician performance, and support metrics.
- ✓ Designed responsive Material-UI interfaces with dark/light mode support for improved user experience across devices.
- ✓ https://mesob-help-desk.vercel.app/

Karis Furniture E-Commerce Platform

Modern digital showroom and e-commerce platform designed to showcase furniture products with a high-end interactive user experience.

Tech Stack: Next.js, TypeScript, Tailwind CSS, Supabase, TailwindCSS, Framer Motion

- ✓ Developed a full-stack e-commerce platform with Next.js and TypeScript for scalable and type-safe application architecture.
- ✓ Integrated Supabase for authentication, database management, and real-time product data handling.
- ✓ Implemented responsive product catalog, search, and filtering features for improved product discovery.
- ✓ Designed premium UI/UX using Tailwind CSS and Framer Motion for smooth animations and interactive product displays.
- ✓ Optimized performance with server-side rendering and static generation using Next.js.
- ✓ https://karis-furniture-beta.vercel.app/

MedFayda – Healthcare Management System (fyda hackaton)
Centralized platform for medical records and healthcare provider tools in Ethiopia.
Tech Stack: JavaScript, React.js, Node.js, PostgreSQL, Express.js, JWT, REST APIs, Postman

- ✓ Built full-stack healthcare system using Next.js, Node.js, PostgreSQL with Fayda ID authentication, dual portals, and SMS fallback.
- ✓ Integrated REST APIs for efficient medical data retrieval and updates.
- ✓ Designed user-friendly interfaces with React.js, focusing on usability.
- ✓ Tested cross-role access control ensuring doctors access only authorized patient records.
- ✓ https://med-fayda.vercel.app/

Warka-Academy – School Management System
Platform streamlining administrative processes for schools with role-based access.
Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- ✓ Built features for class schedules, roles, and reports using React.js.
- ✓ Implemented CRUD operations and role-based access with Node.js and MongoDB.
- ✓ Designed accessible UI with Tailwind CSS for teachers and admins.
- ✓ Focused on usability and clean code architecture.
- ✓ https://warka-acadamy.vercel.app/

Hospital card management
Healthcare management system for patient records and appointment scheduling
Tech Stack: Spring Boot, Java, JWT, MySQL, REST APIs, Postman

- ✓ Developed RESTful APIs with Spring Boot for patient registration, medical records, and appointment management
- ✓ Implemented JWT authentication and role-based access control for doctors, patients, and administrators
- ✓ Performed comprehensive API testing using Postman with validation of 15+ endpoints and security scenarios
- ✓ Created manual test cases for patient workflows, data validation, and cross-role access control testing

ABFG-Church Website
Dynamic website for Alembank Full Gospel Church to share events and activities.
Tech Stack: TypeScript, React.js, Tailwind CSS, GitHub Pages/Vercel

- ✓ Developed responsive event updates using TypeScript and React.js.
- ✓ Applied Tailwind CSS for clean, community-focused UI design.
- ✓ Ensured scalable, maintainable code with TypeScript best practices.
- ✓ Optimized deployment on Vercel/GitHub Pages for accessibility.
- ✓ https://alembankfullgospelchurch.vercel.app/

Personal Portfolio Website
Responsive website showcasing professional projects and skills.
Tech Stack: Next.js, Tailwind CSS, Vercel

- ✓ Designed responsive UI with React.js/Next.js for project showcases.
- ✓ Applied Tailwind CSS for modern, user-friendly branding.
- ✓ Integrated contact links for professional networking.
- ✓ https://natnaeldarsema.vercel.app/
